

THE HIDDEN COST OF PAPER-BASED TRAINING

INTRODUCTION

Paper-based training slows teams down and increases risk. Learn why digital training saves time and money.

THE HIDDEN COST OF PAPER-BASED TRAINING

Paper-based training feels cheap – until you calculate the real cost.

1. Printing & Distribution

Manuals, forms, and checklists add up quickly.

2. Lost Records

Paper gets misplaced, damaged, or incomplete.

3. Inconsistent Delivery

Different trainers = different results.

4. Slow Update

Updating a single SOP across multiple sites can take weeks.

5. Audit Stress

Paper records make audits slow and error-prone.

Digital training eliminates these risks and improves accuracy.
